Subject: Work Order for CRM Solution Integration with Microsoft Navision BC 365 ERP

Based on your representation of expertise in SaaS-based CRM and AI-enabled sales automation solutions, and pursuant to detailed deliberations, submission of your quote, project plan, and discussions with Microsoft Navision BC 365 ERP personnel, Consolidated Carpet Industries Ltd. (CCIL) is pleased to issue this Work Order for implementation of your CRM system integrated with Microsoft Navision BC 365 ERP under the following terms and conditions:

1. Scope of Work

MiClient shall implement, configure, and customize its CRM and QMS application to be seamlessly integrated with Microsoft Navision BC 365 ERP (centralized database) through secure APIs, as per the detailed scope enclosed and agreed upon. The major brief of functional areas include:

- Automated data capture through OCR and AI from visiting cards, emails, orders, POs, and WOs.
- Sales Quotation and PI generation with real-time synchronization to ERP.
- Stock reservation, order reservation, and indent creation via chatbot or alternative solutions.
- AI-based MIS dashboards, automated tracking of shipments, through ERP APIs and milestone-wise receivable reminders.
- Order reservation and indent creation request to ERP

- AI based product recommendation on search
- Image based product matching
- CRM-ERP data exchange for live financials, reconciliations, stock visibility, and reporting
- Marketing and sales promotion Activities based on Historical Data
- Realtime Sales MIS, charts with AI generated correct synopsis
- The CRM will provide AI-based reports to **track lead-to-order conversion, quotation frequency**, and sales team performance to help improve overall sales efficiency; being insights to help management monitor efficiency, improve conversion rates, and optimize sales strategies across regions and teams.
